JESLYN NIVEDHITHA S

+91-9487534297 | jeslynnivedhitha@gmail.com | LinkedIn| Portfolio

SUMMARY

MSc Data Science candidate at KPR College of Arts, Science and Research, focusing on machine learning, statistical analysis and data-driven problem solving. Brings a strong technical foundation from 1 year of prior software development experience, with working knowledge of databases. Passionate about applying data science and analytics to build intelligent data-driven solutions.

EDUCATION

KPR College of Arts, Science and Research — **July, 2026**

MSc in Data Science

CGPA: -

Board: Bharathiar University

Coimbatore, India.

PSG College of Technology — **June, 2025**

BSc in Computer Systems and Design

CGPA: 9.24

Board: Anna University

Coimbatore, India.

Carmel Garden Matriculation Higher Secondary School — **May, 2022**

HSC

Percentage: 95.16%

Board: State Board

Coimbatore, India.

St. Joseph's Matriculation Higher Secondary School — **March, 2020**

SSLC

Percentage: 85.6%

Board: State Board

Coimbatore, India.

WORK EXPERIENCE

- Web Design Intern - Team Tweaks Technologies, Chennai — **June, 2024 - July, 2024**

Designed a responsive frontend for Tyeel (farmers' platform) using HTML5, CSS, Bootstrap, JavaScript.

- Software Engineer - Light Mechanics, Bengaluru — **June, 2025 - July, 2026**

Developed laser solution applications for SPMs, optimized seamless communication between software interfaces, database, PLC and third party MES platforms.

TECHNICAL SKILLS

- Web & Framework : React, Next.js, Bootstrap, Node.js Basics, .NET, Streamlit
- Programming Languages: Python,C,C#
- Data Science and ML: Scikit-Learn, Pandas, NumPy, Matplotlib, Plotly
- AI and LLM : Groq, Open router - APIs, Text-to-SQL pipeline, Speech-to-Text, Prompt Engineering
- Data Storage : MS SQL server, MySQL, SQLite, MongoDB
- Tools : Docker, Figma, Power BI, Git

INTERESTS

- Data Analysis & Visualization
- Machine Learning & Predictive Modeling
- Full Stack Development
- UI/UX Design
- Behavioral Psychology

PROJECTS

- DataScribe – Engineered an AI-powered conversational database platform leveraging Groq LLM and speech recognition to translate natural language and voice queries into executable SQL, enabling automated schema inspection and dynamic real-time data visualization.
- Scrubb AI – Developed an automated data preprocessing and quality auditing suite utilizing statistical heuristics and machine learning to detect outliers, impute missing values and deduplicate messy datasets, establishing automated pipeline health scoring.
- Student CBT Distortion Analytics – Applied machine learning to identify cognitive distortion patterns in students for early mental health risk screening, informing recommendations like automated campus screening and CBT-based intervention design.

CERTIFICATES & ACHIEVEMENTS

- NPTEL Course Python for DataScience - Silver Badge
- Best Outgoing Student of CSD 2025 Batch at PSG Tech
- Infosys Springboard Certification on Data Science and Data Structures & Algorithms
